### EDUCATION

2024 - 2024

FREE CODE CAMP

- Responsive Web Design
- JavaScript Algorithms and Data Structures

2024 - 2024

UNIVERSITY OF HELSINKI

- Elements of AI

2024 - 2024

FUTURE CODERS

- Web Development
- Video Game Designing

2021 - 2023

W3SCHOOLS

- JavaScript
- HTML
- CSS

### PROFILE

I am a self-taught front-end developer passionate about solving problems and creating responsive, user-centric web applications. With strong expertise in JavaScript, and frameworks like React, Angular, and Vue.js, I focus on building intuitive, dynamic interfaces. My experience with Tailwind CSS and jQuery enhances my ability to deliver efficient, visually appealing designs. Solving challenges on LeetCode has sharpened my algorithmic thinking, and I thrive in collaborative environments where I can adapt and innovate. Driven by curiosity and continuous learning, I bring both creativity and technical expertise to every project I undertake.

### TECHNICAL SKILLS

#### JavaScript Development

- Advanced expertise in JavaScript fundamentals, DOM manipulation, Object-Oriented Programming (OOP), Functional Programming, algorithmic problem-solving, and API integration.

#### Front-End Development

- Advanced proficiency in HTML5, CSS3, and JavaScript for developing responsive, interactive web applications.
- Techniques: Responsive Web Design, Flexbox, CSS Grid, Media Queries.

#### Frameworks & Libraries

- Proficient in React, Angular, and Vue.js for building dynamic, single-page applications with efficient state management.
- Skilled in Tailwind CSS for rapid, customizable UI design, and jQuery for DOM manipulation and event handling.

#### Web Development

- Strong foundation in Data Structures, Responsive Web Design principles, and best practices in web development, with a focus on continuous learning and staying updated with industry trends.

#### Version Control & Collaboration

- Proficient in Git and GitHub for efficient version control and seamless collaboration.
- Collaborated on a variety of innovative projects, contributing to development from planning to deployment while ensuring code quality and fostering effective team collaboration.

# RABUMA ABRAHAM

## FRONTEND DEVELOPER

### TECH STACK

#### LANGUAGES

- JavaScript (Advanced)
- HTML5 (Advanced)
- CSS (Advanced)

#### FRAMEWORKS

- React
- Vue.js
- Angular
- Tailwind CSS

#### LIBRARIES

- jQuery

#### VERSION CONTROL

- Git
- GitHub

#### TOOLS

- VS Code
- Figma
- Photoshop

### LANGUAGES

- English (Fluent)
- German (Basics)
- Amharic (Native)
- Oromo (Native)

### HOBBIES

- Drawing (I enjoy sketching in my free time)
- Football (Taught me the value of teamwork)

### PRACTICAL EXPERIENCE

#### ● 15.11.2024 - Present

##### Web Developer | UPWORK

- Website Designing and Development
- E-commerce Development
- Search Engine Optimization (SEO)
- Website Maintenance and Updates
- Web Hosting and Deployment

#### ● 10.11.2024 - Present

##### Founder and Web Developer | RTECH

- Founded RTECH, a web design and development agency, specializing in high-quality, responsive websites.
- Currently building the agency's portfolio and client base with innovative web solutions.
- Overseeing all aspects of web development, from design to implementation, and establishing a strong online presence.

### RECENT PROJECTS

#### ● 11.2024 | Benedict Schule

##### Quiz Generator for Benedict School

- Developed a web-based quiz app for teachers to create multiple-choice quizzes and display them on a projector.
- Features include real-time feedback, question management, and quiz replay.
- **Technologies:** HTML, CSS, JavaScript.

#### ● 10.2024 | Movie Recommendation App

##### Co-Developer | GitHub

- I contributed as a co-developer in building a web-based movie recommendation app using The Movie Database (TMDB) API.
- I Developed key features, including the Popular Movies and Genre-Based Recommendations sections, and implemented the main app functionality.
- **Technologies used:** HTML, CSS, JavaScript, TMDB API.
